Professional Summary

Web developer with 7+ years of experience building and maintaining small business websites and corporate pages. Used to working in small agencies, handling basic front-end tasks (HTML/CSS, simple JavaScript interactions) and

Professional Experience

Web Developer (WordPress / jQuery)

RioWeb Studio (fictitious) – Logroño

03/2018 – Present

- Development and maintenance of WordPress-based websites for local businesses (restaurants, small shops, clinics).
- Implementation of custom themes using PHP, HTML5, CSS3 and basic JavaScript/jQuery for sliders, modals and animations.
- Integration of third-party plugins (contact forms, SEO, caching, security plugins).
- Basic configuration of shared hosting (cPanel), domains and email accounts.
- Occasional content updates requested by clients (images, texts, blog posts).
- Performance improvements mostly through image optimisation and caching plugins.

Junior Web Developer

Agencia Creativa Norte (fictitious) – Logroño

09/2015 – 02/2018

- Assisted senior developers in creating static and WordPress sites.
- Wrote simple JavaScript snippets to validate forms and create basic interactive elements.
- Maintained CSS stylesheets and fixed layout issues across browsers.
- Helped migrate old sites from plain HTML to WordPress.

Education

Diploma in Web Design and Development (Vocational Training)

Centro de Estudios Digitales La Rioja (fictitious) – 2013 / 2015

High School Diploma (Bachillerato)

IES Valdeplata (fictitious) – 2011 / 2013
